

The School Volunteer typically increases the number of volunteers by more than 30% - and reduced operating costs generally cover the annual subscription fee. A web-based service, The School Volunteer automates time-consuming, error-prone functions, including:

- Volunteer Registration
- Committee Creation
- Volunteer/Committee Assignments
- Committee Roster Reporting
- Committee-specific Email Messaging

The School Volunteer provides an improved sense of community and an open, inclusive committee staffing process. Additional benefits include:

- Reduced costs associated with postage, paper, printing, copying, etc.
- Increased number of volunteers
- Improved volunteer retention (year-to-year continuity)
- Under-staffed committee identification
- Volunteer reminder (what committees did I join?)
- Leadership nominee slates
- Fast and simple registration for volunteers
- Best practices for committee management

A comparable solution would cost an individual school upwards of \$100,000 for system development, plus an estimated \$15,000 annually for on-going programming, hosting and other support. The School Volunteer spreads these costs across multiple schools and delivers the needed service for a low annual subscription fee.

A \$1,500 one-time activation fee covers the cost to train the school's Volunteer Coordinator and assistance with the initial loading of committee data. The School Volunteer waives this fee for schools purchasing a multi-year subscription.
